CUSTOMER MOBILE TARIFF GUIDE

JUNE 2018

exec.plan

BIG DEAL.
HIGH FLYER.
HEAD HONCHO.

EVERY BUSINESS HAS THEM.

plan.com

When it comes to business mobile and telecoms, we set the standard

If you're a UK business, no matter how big or small, we can provide everything you need to keep your business connected and in control of its handsets.

If you're reading this, one of our business partners will already be working closely with you. Using our award-winning online portal, they will help shape the best tariffs, bolt-ons and services for your business, and provide day-to-day support if and when it's needed.

As a plan.com customer, you will enjoy all the benefits of the O2 network and its outstanding UK coverage. In addition, we'll give you my.plan – an online portal that provides live information about your account and handsets that is beyond anything that any network is able to deliver.

Big deal Top dog High flyer

Every business has them.

Every mobile deal should cater for them.

Whether you're a head honcho, big deal or never at your desk, exec.plan is designed with you in mind.

exec.plan

exec.plan

Europe Zone

Roaming in Europe is easier than ever. You can now use your UK allowances when travelling in the plan.com Europe Zone, at no additional cost*. The plan.com Europe Zone includes:

- Austria
- Azores
- Belgium
- Bulgaria
- Canary Islands
- Croatia
- Cyprus (Republic of)
- Czech Republic
- Denmark
- Estonia
- Finland
- France
- French Guiana
- Germany
- Gibraltar
- Greece
- Guadeloupe
- Guernsey
- Hungary
- Iceland
- Isle of Man
- Jersey
- Ireland (Republic of)
- Italy
- Latvia
- Liechtenstein
- Lithuania
- Luxembourg
- Madeira
- Malta
- Martinique
- Monaco
- Netherlands (The)
- Norway
- Poland
- Portugal
- Reunion Islands
- Romania
- Saint Barthélemy
- Saint Martin
- San Marino
- Slovakia
- Slovenia
- Spain
- Sweden
- Switzerland
- Vatican City

*Note that all maritime, satellite and airborne networks are not included, even though they may be based in Europe. Please see roaming T&Cs for full details about call, text and data usage within the plan.com Europe Zone.

Countries in blue indicate the plan.com Europe Zone. Map is for illustrative purposes only. Please refer to the written list for the destinations included in this package.

OPTIONAL

Exec Traveller

Travel in style with our Exec Traveller bolt-on.

Customers enjoying our exec.plan tariff will gain exclusive access to our Exec Traveller roaming bolt-on.

Exec Traveller is easy to add and enables customers of these premium tariffs to use their mobile or connected devices with total confidence while travelling in our World Zone, which covers 113 destinations – more than most other networks.

Exec Traveller

This exclusive exec-level roaming bolt-on comes with an impressive 500mb of data, 100 minutes and 50 texts per day, which can be enjoyed at a daily cost of **just £5**. This is only applied on the days the product is used while roaming.

A fair use policy applies to this bolt-on*.

Exec Traveller

Exec Traveller covers

- In-country calls e.g. USA to USA
- Calls back to the UK e.g. USA to UK
- Roaming terminated calls e.g. calls received in the USA from the UK
- In-region calls e.g. USA to Canada

Exec Traveller does not cover

- UK to World Zone destinations – you must be roaming to activate the bolt-on
- Out-of-region calls e.g. USA to China
- Out of World Zone e.g. USA to Germany (see next page for details)

The following charges apply *until 1 July 2018*

For updated prices, please see the next page

Additional charges: domestic

As a plan.com customer, you pay a fixed, monthly contractual amount every month that will change depending on which tariff you're on and which allowances you're enjoying. However, there are exceptions. Not everything is included in your monthly allowances and you may occasionally need to pay a bit extra.

Type	Cost
Calls to premium & non-geographic numbers	Set by premium & NGN operator
Sending an MMS message*	40p per message

exec.plan Terms & Conditions

Calls

If you exceed your monthly call allowance during a billing cycle, you will pay our standard out of bundle UK/EU call rates. Call minutes only include UK to UK and EU to EU calls to standard numbers.

Call minutes exclude premium-rate numbers, which are often used by TV shows, quiz companies, chat providers and some websites. Prices are set by the premium operator.

Call minutes exclude non-geographic numbers, which are often used by call centres and not associated with areas of the country e.g. 0161 for Manchester. They often start with 05, 07 or 08. Prices are set by the NGN operator.

Some telephone numbers are operated by third-parties who connect or forward calls to another number. There are lots of these third-party services and prices are charged by the third-party at a higher rate to connect calls. Calls to these non-mobile and call forwarding services are not included in your inclusive minutes.

Unlimited calls

Unlimited calls are subject to our fair usage threshold of 3,000 minutes. We reserve the right to disable access to this tariff if the policy is breached.

Click here for more information on our Fair Usage Policy: www.plan.com/fairuse

Unlimited calls are subject to the same terms and conditions that are set out in 'Calls'.

Texts

Text messages (SMS) only include UK to UK text messages. They exclude premium-rate numbers, which are often used by TV shows, quiz companies, chat providers and some websites.

Customers may also be charged for receiving text messages from premium-rate numbers. Prices are set by the premium operator.

Unlimited texts

Unlimited text messages (SMS) are subject to our fair usage threshold of 3,000 text messages. We reserve the right to disable access to this tariff if the policy is breached. Click here for more information on our Fair Usage Policy: www.plan.com/fairuse

Unlimited texts are subject to the same terms and conditions that are set out in 'Texts'.

MMS

MMS are not included in our tariff packages. MMS stands for multimedia message service and a message is typically generated when you send a photo or picture. However, an MMS message may also be sent if you add an emoticon to an SMS, exceed a certain character limit for an SMS, or based on your device settings.

Using your phone as a personal hotspot (tethering)

We do not recommend using your phone or connected device as a personal hotspot. SIMs on standard mobile tariffs are designed for calls, texts and general use such as daily browsing. They're not designed for being used as (or in) a mobile broadband device, as this usually consumes a great deal of data.

When you use your phone as a hotspot, all devices will be using data from your phone. Depending on the number of devices connected and what they're being used for, your data allowance could be used up (and exceeded) very quickly.

In addition to this, the reporting of the amount of data used while tethering is subject to increased delays, sometimes of several days. This means that we may not be able to react as quickly to tethered data use as standard data use. Therefore, any data alerts and/or bars set up on your account will also be delayed. This could lead to additional charges on your account.

The reporting of data while roaming outside the UK can further increase the delay in data reporting. Due to the increased cost of using data outside the UK/EU, we highly recommend that you avoid using your phone or connected device as a personal hotspot while roaming.

Data

If you exceed your monthly data allowance, you will pay our standard out of bundle domestic or roaming data rates.

The reporting of data usage can be subject to delay. Data reporting is controlled by the network on which data is being used.

Exec Traveller Terms & Conditions

Daily activation

Exec Traveller can only be used in conjunction with exec. plan tariff. It cannot be applied to any other tariff.

Roaming usage includes calls and SMS that originate outside of the UK. These allowances are only activated and accessible while roaming outside the UK or the plan.com Europe Zone. Calls, SMS and data used while visiting a Europe Zone destination will be deducted from a Customer's UK allowances (terms and conditions apply).

Daily roaming data cannot be used to supplement domestic data usage.

Exec Traveller has a daily activation fee of £5 when triggered while roaming in our World Explorer Zone (defined above). It includes a daily roaming allowance of up to 500MB of data, 100 minutes of voice and 50 texts.

You are charged the daily activation fee when you call, text or use data. You'll only be charged the daily amount on the days you use your phone in our World Explorer Zone.

If Customer usage exceeds the applicable allowance(s), usage may not automatically be capped and the Customer will be charged at the standard roaming rates.

Note that data usage in our World Explorer Zone is charged at up to £6 per MB.

If the bolt-on is activated more than 28 times during a 90-day period, the bolt-on may be removed and you will pay our standard out of bundle roaming rates when roaming.

Daily charges

Customers will be charged and usage will begin to be measured from the point in time that the Customer first starts using data, sends an SMS/text or makes a call in the World Explorer Zone (as applicable).

For charging purposes, a day begins at 12:01am GMT/UK time and ends at 12:00am GMT/UK time.

Only an authorised person can add one of the Exec Traveller Roaming bolt-ons to a Customer mobile number/SIM and we will send an SMS/text confirmation to the Customer's mobile number/SIM when added. If you receive an SMS/text from us and have any questions, please contact Customer Services immediately.

The above cost applies per connection/SIM.

Opting out of Roaming Data Caps

Customers accept that by adding a Exec Traveller bolt-on they will be opting out of any EU Regulations, which apply a cap on mobile data usage in our World Explorer Zone.

Currently the EU default financial limit is €50 per month.

Notwithstanding that the Customer will have opted out of the data cap applied under EU Regulations, plan.com will endeavour to assist Customers in managing their data usage and spend by sending notifications where usage reaches 80% of the bolt-on limit and subsequently when usage reaches 100% of the bolt-on limit. Please check with the business partner who brought you to plan.com if these notifications are in place.

If Customer usage exceeds the applicable limit, usage will not automatically be capped and Customer will be charged at the standard roaming rates.

Note that data usage in our World Explorer Zone is charged at up to £6 per MB and we strongly recommend disabling data to avoid bill shock.

Customers can choose to cap usage in line with their chosen bolt-on by calling plan.com on +44 (0)3300 88 89 90 or by texting CAPEXEC to +44 (0)7860 039 195.

Customers can monitor usage by accessing their account portal at my.plan.com. All prices stated are exclusive of VAT.

Exceeding the 28-day activation allowance

To comply with regulations, customers can enjoy daily roaming bolt-ons up to 28 calendar days during a 90-day period.

Customers will be warned on the 28th day of using the bolt-on that the bolt-on may be removed at the end of the day and standard charges will be in place if they continue to use the device while roaming.

Note that data usage in our World Explorer Zone is charged at up to £6 per MB and we strongly recommend disabling data if the bolt-on is removed to avoid bill shock.

Exceeding daily data allowances

If you exceed your daily bolt-on allowance, you will pay our standard out of bundle roaming data rates. Note that data usage in our World Explorer Zone is charged at up to £6 per MB and we strongly recommend disabling data if the bolt-on is removed to avoid bill shock. See our pricing page for more information.

The reporting of data usage can be subject to delay. Data reporting is controlled by the network on which data is being used.

International calls and texts

International usage includes calls and SMS that originate in the UK and are received by services outside the UK. International usage does not include making calls or sending SMS while abroad (these are classed as roaming usage, no matter where the call or SMS is received). International usage does not include calls back to the UK. International usage is not part of the standard tariff and as such, is not included within unlimited call or unlimited text allowances. International calls are not covered by roaming bolt-ons as they are not classed as international usage.

Using your phone as a personal hotspot (tethering)

We do not recommend using your phone or connected device as a personal hotspot. SIMs on standard mobile tariffs are designed for calls, texts and general use such as daily browsing. They're not designed for being used as (or in) a mobile broadband device, as this usually consumes a great deal of data.

When you use your phone as a hotspot, all devices will be using data from your phone. Depending on the number of devices connected and what they're being used for, your data allowance could be used up (and exceeded) very quickly.

In addition to this, the reporting of the amount of data used while tethering is subject to increased delays, sometimes of several days. This means that we may not be able to react as quickly to tethered data use as standard data use. Therefore, any data alerts and/or bars set up on your account will also be delayed. This could lead to additional charges on your account.

The reporting of data while roaming outside the UK can further increase the delay in data reporting. Due to the increased cost of using data outside the UK/EU, we highly recommend that you avoid using your phone or connected device as a personal hotspot while roaming.

General roaming Terms & Conditions

These Terms & Conditions form part of the Customer Guide and are incorporated into the Business Customer Contract between each Customer and Plan Communications Limited ("plan.com").

What is roaming?

'Roaming' is when a Service is used outside of the UK, for example, when you travel to a foreign country with your mobile phone. Your plan.com tariff does not include use of your service(s) outside of the plan.com Europe Zone ("EZ"). Therefore, using Equipment (e.g. a phone or device such as a connected tablet or laptop) outside of the UK or EZ means that you may incur additional charges, other than those described as part of your tariff, while using your device.

Roaming usage

Equipment is 'being used' while abroad when one or more of the following events take place:

Data is accessed by your device. This may happen as soon as a device ("Equipment") connects with a foreign network provider. plan.com will charge you a fixed standard per MB rate for this data usage without an applicable roaming data bolt-on. To prevent this, either mobile data must be turned off, roaming data must be turned off, the Equipment must be in Flight Mode and/or the Equipment must be turned off. PLEASE NOTE: Data can be accessed by your Equipment as soon as it is turned on, or Data access is enabled having been previously disabled. Data is not limited to specific apps being opened e.g., Facebook, an internet browser or Spotify. Background tasks often access data on your Equipment without your specific interaction. Therefore, your Equipment may be sending or receiving data simply by being turned on.

A **call** is made or received. In order to make or receive a call, your Equipment will automatically attempt to connect to a foreign network provider. The third-party will fulfil this call request. You can prevent calls from being received while abroad by keeping your Equipment in Flight Mode, or asking for an incoming call bar to be applied. plan.com will charge you a fixed standard per minute rate for this usage (see pricing) unless the usage is bundled with a roaming voice bolt-on.

A **text** message is sent. As above, this Service will be fulfilled by a foreign network provider and plan.com will charge you a fixed rate per text (see our [pricing guide](#)) unless the usage is bundled with a roaming SMS bolt-on. Multimedia Messages (MMS) are not covered by roaming bolt-ons and are priced accordingly.

Roaming bolt-ons

To help control costs while roaming, roaming bolt-ons can be applied to a service. There are a variety of daily and monthly bolt-ons available. Bolt-ons provide additional allowances for data, calls and/or texts while roaming for a fixed price, and cover a variety of different roaming destinations. To find out which bolt-on is best for you, please visit our [roaming bolt-ons guide](#).

Roaming calls

Roaming calls are calls that are made from a Service while roaming, or received by a Service while roaming.

Calls made to the UK while roaming are classed as roaming calls.

Please note that calls made from the UK to non-UK destinations are never classed as roaming calls. These are classed as international calls and charged at separate fixed rates, specific to your tariff. They are not covered by the majority of roaming bolt-ons.

You may be charged for receiving a call while not in the UK/EZ. The amount charged is related to the destination in which the call is received, and the duration of the call. Please see our [pricing guide](#) for more information.

Calls made and received while roaming will either be charged at a fixed per minute rate, which relates to the destination in which the call is made or received, or deducted from your bolt-on allowance(s). For example, if you receive a 30-minute call from the UK while roaming in Canada, you will be charged the appropriate amount for receiving a 30-minute call, or 30 minutes will be deducted from your daily or monthly roaming bolt-on allowance(s). Calls made to premium-rate numbers such as support lines or competition lines may be subject to additional charges, which are set by the third-party provider.

Roaming texts

Texts sent while roaming are charged at a standard roaming rate (please see our [pricing guide](#) for more information). Texts made to or received from premium rate numbers such as a support line or competition line may be charged, with prices are set by the third-party provider.

Roaming data

If you do not have a roaming bolt-on or you exceed your daily bolt-on allowance(s), you will be charged our standard out of bundle roaming data rates. Note that data usage in or outside the EZ is charged at £6 per MB and we strongly recommend disabling data before

connecting to a foreign network if you do not have a roaming data bolt-on or your bolt-on allowance is exceeded. See our [pricing guide](#) for more information.

The reporting of data usage can be subject to delay. Data reporting is controlled by the network provider on which data is being used and it is beyond the control of plan.com with regards to when the foreign network provider releases this information.

Roaming in the plan.com Europe Zone

Customers with tariffs and bolt-ons that include UK allowances may use their UK allowances when roaming in the plan.com Europe Zone (EZ).

Usage in these destinations will be deducted from your tariff allowances. For example, our more.plan 5GB tariff customers will enjoy unlimited calls and texts as well as 5GB of data to use in the UK and EZ. If you use 500MB in France, 500MB will be deducted from your more.plan 5GB data bundle.

EZ usage that exceeds standard tariff allowances will be charged at the same additional charge rates that apply to the UK.

The following usage is **included** with the UK tariff allowance:

- All data usage in the EZ
- Calls and texts back to the UK from an EZ destination (including voicemail retrieval)
- Calls and texts within an EZ destination, e.g. Spain to Spain
- Calls and texts from one country to another where both are in the EZ, e.g. Spain to Germany (except where calls or texts originate in the UK – these are still regarded as international calls/SMS)

The following usage is **excluded** from the UK tariff allowance:

- Calls and texts from the UK to destinations in the EZ will not be included in UK Tariffs – these are International calls/texts
- Calls and texts from in the EZ to a non-EZ destination, e.g. Spain to the USA are classified as Out of Zone Calls/ Texts and subject to fixed per minute/SMS charges
- All calls and texts to Premium/Non-Geographic numbers are not included, neither are texts received from premium rate numbers

Non-domestic use limitations

Roaming in the EZ is intended for people who occasionally travel outside the UK where they live or have stable links i.e. they work or study there. It's not meant to be used for permanent roaming. As long as you spend more time at home than abroad, or you use your Equipment more at home than abroad, you can roam freely at domestic prices when travelling anywhere in the EZ.

We reserve the right to check your usage patterns to determine if you might be abusively using your EZ roaming (regulated roaming services at domestic price).

If you spend more than two months abroad out of four months, and if you have consumed more data abroad than at home over this time, we may send you an alert. Once the alert is received, you will have two weeks to clarify the situation. If you continue to remain abroad, we reserve the right to apply surcharges (equivalent to wholesale roaming caps, agreed on 31 January 2017).

Roaming near borders

While roaming in countries that border with other destinations that fall outside the region or zone (e.g. The Republic of Cyprus, which borders with the Turkish Republic of Northern Cyprus), it is possible for a roaming mobile phone to connect with a mobile mast in the neighbouring country. In the example of Cyprus and Turkey, voice, text and data charges are set at the higher, non-EZ rates. When it comes to data usage, this can be up to £6 per MB. This is also true of maritime, satellite and airborne networks.

plan.com is not able to control which network your Equipment connects to. For this reason, we are not liable for any additional charges that are incurred.
